

CALL FOR POSTER ABSTRACTS

UF ANIMAL FORENSIC INVESTIGATIONS CONFERENCE

The UF Veterinary Forensic Sciences Laboratory is pleased to invite poster submissions for the 2024 Animal Forensic Investigations Conference, which will take place on May 20 – 22, 2024, in Gainesville, FL. Our goal is to bring investigators, veterinarians, forensic scientists, technicians, students, and attorneys together to discuss animal cruelty investigations and how we can get justice for all animal victims of abuse.

The poster session offers an opportunity to present research findings with particular emphasis on animal cruelty investigations. The poster session is open to all conference attendees but we particularly invite students and trainees to submit abstracts for consideration. Those submitting abstracts for consideration should make note of the following:

- Submissions are due Friday, March 29, 2024, at 11:59 p.m. ET.
- Posters must focus on current issues, cases series, and/or research that have an impact on animal cruelty investigations.
